ACCOUNTING Touch

COMPANY PROFILE • 2026

AI-Native Bookkeeping, Checked by Certified Accountants

Our certified accountants keep your books in QuickBooks Online and Xero accurate, reconciled and ready for your CPA. AI then double-checks every month's work, and a person approves every change.

Who We Are

Accounting Touch is a bookkeeping firm that helps small business owners and accounting firms keep accurate, up-to-date books in **QuickBooks Online** and **Xero**. We bring messy or months-behind books up to date, keep them clean every month, and explain the numbers in plain English so owners can make decisions with confidence.

Since 2020, our team has completed more than 900 bookkeeping projects for over 230 clients across 20+ industries. We work remotely and securely with clients in the USA, UK, Canada, Australia, New Zealand, the UAE and beyond.

Our mission

Give every small business owner accurate, up-to-date books and clear numbers, so they can spend their time growing the business instead of worrying about it.

Our promise

Books you can trust: every account reconciled against your statements, every unclear item asked about, and nothing changed without a person checking it.

What “AI-native” means at Accounting Touch

1 Accountants do it

Certified bookkeepers categorize, match and reconcile every transaction in your own QuickBooks Online or Xero file.

2 AI double-checks it

Before each delivery, AI scans the books for duplicates, missing transactions and unusual items.

3 A person approves

AI never changes your books on its own. Our team reviews each flag and decides what to correct.

Our core values

Accuracy	Consistency	Confidentiality	Communication
Team checks plus an AI review on every close.	Reliable monthly reporting, on schedule.	Strict access control and privacy protocols.	Prompt, clear and transparent updates.

Our Services

Everything a small business or CPA firm needs to keep clean, reconciled books in QuickBooks Online and Xero.

01 Catch-up & Clean-up

Bring past-due books current and fix historical errors.

- ✓ Record missing transactions
- ✓ Fix categorization and reconciliation issues
- ✓ Tax-ready financials for your CPA

02 Monthly Ongoing Bookkeeping

Your books closed every month (or twice a month).

- ✓ Transaction categorization
- ✓ Bank and credit card reconciliation
- ✓ Complimentary monthly financial summary

03 Setup & Migration

QuickBooks or Xero set up right, or moved without losing data.

- ✓ New file setup and chart of accounts
- ✓ Data migration and conversion
- ✓ Bank feeds and app integrations

04 Bank & Card Reconciliation

Every account matched to your statements.

- ✓ Record and match transactions
- ✓ Find and resolve differences
- ✓ Accurate account balances

05 Audit & Issue Fixing

A full review of your books, with problems corrected.

- ✓ Duplicates and no-status entries
- ✓ Undeposited funds and opening balances
- ✓ Balance sheet clean-up

06 A/R & A/P Management

Know who owes you and what you owe.

- ✓ Invoice and bill tracking
- ✓ Customer payments matched to invoices
- ✓ Accurate aging reports

07 AI-Native Bookkeeping

Accountants do the bookkeeping; AI checks each close.

- ✓ Duplicate and missing-transaction checks
- ✓ Plain-English monthly summary
- ✓ Every change approved by a person

08 White-Label for CPA Firms

Extra capacity under your firm's brand.

- ✓ Confidential white-label delivery
- ✓ Scalable back-office support
- ✓ Standardized quality control

How We Work

1
Free books review
You grant read access to QuickBooks Online or Xero. We review the books and send a clear scope and quote.

2
Our accountants do the work
Certified bookkeepers categorize, match and reconcile against your bank and card statements.

3
AI double-checks it
AI scans for duplicates, gaps and unusual items. A person approves every fix.

4
Clean books + summary
You get reconciled, CPA-ready books and a plain-English summary of your numbers.

No long-term contract. Cancel anytime.

Industries we serve

Construction	**Cleaning Services**	**E-commerce**	**Fitness, Gym & Yoga**
Medical & Healthcare	**Nonprofit Organizations**	**Photography**	**Landscaping**
Real Estate	**Restaurants & Food**	**Transportation**	**Digital Services**

Core platforms: QuickBooks Online and Xero

Stripe · PayPal · Square · Shopify · Amazon · Etsy · Dext · Hubdoc · Jobber · Housecall Pro · Propertyware · Service Fusion · Wise · Zelle · Venmo · Cash App · Google Sheets · Microsoft Office · Notion

Keeping your data safe

- ✓ We work inside your own QuickBooks Online or Xero file, with the access level you choose.
- ✓ Each team member is given access only to the client files they work on; access is removed when a project ends.
- ✓ Client documents are kept in restricted, access-controlled folders and are never shared outside the team.

Monthly Plans

Simple monthly plans, handled by certified accountants, with an AI double-check before delivery. Your final price is confirmed after a free review of your books.

Why Choose Accounting Touch

Certified accountants, not just software

Real bookkeepers with 900+ completed projects work in your books. AI is an extra check, never a replacement.

Reconciled to your statements

Every bank and card account is matched to your statements, so your balances are right, not just categorized.

Clear, plain-English updates

Regular progress updates and a simple monthly summary of income, expenses, profit and cash.

Ready for your CPA

Clean, organized, tax-ready books that save your accountant time and you money at tax time.

Secure and confidential

Strict access control on every client file, with access removed when the work ends.

Flexible and scalable

From one small business to CPA firms with many clients. No long-term contract.

Ready for books you can trust?

Start with a **free books review**. Grant access to your QuickBooks Online or Xero file, and we will send you a clear scope of work and a quote, with no obligation.
